*Note: All images are just used for preview purpose only and NOT included in the final purchase files*

## Getting Started

---

To get started u just need to open the file .muse that has been available.

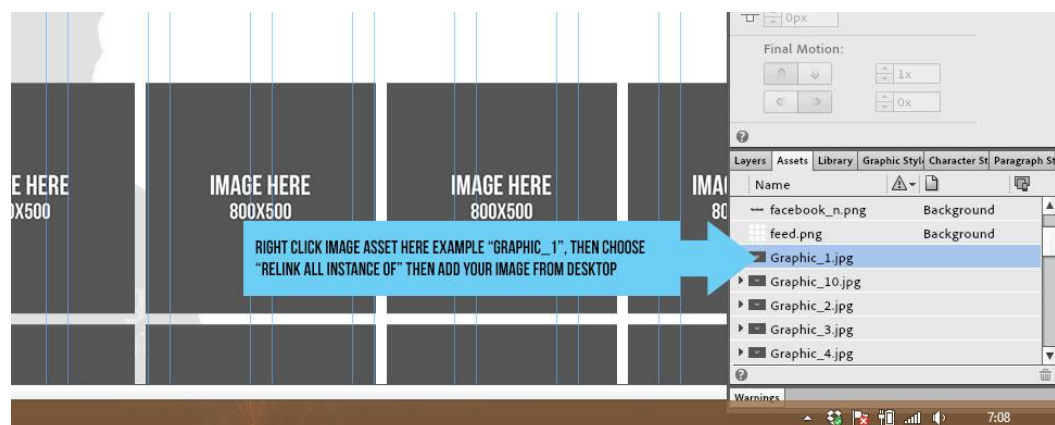

and to make it easier, I have also provided the folder "images" that you can use.

## Replacing and Changing Images

---

Its easy and no need coding to edit.

1. Select the rectangle slides, icons, and image you want to fill.
2. Click “fill” and change with a new image or
3. Right click on the image in the assets menu, than click “Update asset” and the new Image will appear.

*note : All image automatically change on tablet and phone too.*

4. if you use image from photoshop, save as a PNG (replacing the original PNG).
5. if you want change colour theme, just click “swatches” in the menu panel with the new colour you want.
6. Make site without writing any coding, just “drag” and “drop” with your own style.

## Exported

---

1. Go to the Adobe Muse File menu, and choose Export as HTML. From there, you can upload the HTML files to your hosting provider.
2. Or, choose Upload to FTP Host and complete the FTP upload form..\
